

Insuring traditional agribusiness and farm operations untraditionally. Whether a multi-million dollar agribusiness, or hobby farmer, this line of insurance requires expertise, and more importantly service from someone who has it.

Farmers, agribusinesses, agents and brokers, contact us and come see what its like to have a modern day insurance transaction, yet still be dealt with importance...one customer at a time with honest dealing as the standard.

Carriers

We work with Standard Market carriers with a Best's Rating of A+ or better.

Insurance professionals depend on Best's Ratings to determine the financial strength and operation of specific insurers, to evaluate prospective reinsurance accounts, to compare company performance and financial condition, and more. A Best's Rating can influence an agent's selection of plans to market.

What you can expect of us

Prompt, courteous, knowledgeable response to you questions, requests, and applications. Our team can give you an indication of expected premium when you submit a "Quick Quote", often in less than one hour!

If our indication is competitive, then you're asked to complete our Standard Farm Application which goes into greater detail about your specific risks.

The only thing our Agribusiness and Farm Insurance department writes, is just that; Agribusiness and Farm Insurance. We know the industry inside and out. We know which carrier will provide the best product in your or your clients' circumstance.

It is our goal to provide personalized attention to your account. By getting to know your account better, we can help to make sure you're only offered the coverages you need to keep your investments protected.

*one customer at a time,
with honest dealing
as the standard...*

Our favorite types of business

Although we write all types of Ag & Farm insurance businesses, there are some, who like the best cream, have risen to the top of our list. They include, in no particular order:

- Grain Farms
- Livestock Farms
- Fruit Farms
- Vegetable Farms
- Dairy Farms
- Feed Mills & Grain Elevators
- Biodiesel Plants
- Livestock Mortality
- Implement & Machinery Dealers
- Farm Managers
- Wineries & Vineyards

Licensing

In order to be able to write policies effectively it's important to be able to write it where our customers are located!

We are pleased to write insurance in the 48 continental United States and the District of Columbia.

Convenience

As an added convenience, our application process is quick and painless. Technology allows us to create custom Agribusiness & Farm applications which you can complete online, save the data in the form; print the form; and even submit it to us electronically. All from the convenience of your computer. Our goal is to make each transaction with us an enjoyable experience for you.

Service

We strive to provide the highest level of service. We're fortunate to have the best customer service team spearheaded by our policy of responding to your request within fifteen minutes! Our team will exceed your highest expectation, that's our guarantee!

Flexibility

Our progressive structure and abilities offer us a unique amount of flexibility to write business. Through a blend our longstanding company relationships and new technology, we have the ability to write business anywhere. Understanding that you don't always have months or even weeks to receive quotes on new business, we often have the ability to turn quotes around as soon as you need them.
